1. Analysis of Renomination Competitiveness (list candidates)

Files

name of do-file: an_list_replication.do
name of data set: data_list.dta

Observations

The data set includes all German Bundestag MPs (2009-2013) who sought re-election in the list-tier at the federal election of 2013.

Variables:

Kandidaten_Vorname

description: first name of MP
coding: [string]
source: provided by the German Federal Election Office
("Bundeswahlleiter")

Kandidaten_Nachname

description: last name of MP
coding: [string]
source: provided by the German Federal Election Office
("Bundeswahlleiter")

partei_string

description: party membership of MP
coding: [string]
source: provided by the German Federal Election Office
("Bundeswahlleiter")

party

description: party membership of MP
